### About Me

I am a Full stack web developer with experience building websites and I specialize in HTML and have experience working with HTML, CSS and JavaScript. And soon I'll learn more skills like all type of Search Engine Optimization (Seo), Linux, react, NodeJS etc.

### projects

#### Allguidesite

This is a website I made using HTML, CSS, javascript, bootstrap and this website provides free textbook solutions and guides to students.

<https://www.allguidesite.in/>

#### Class Website

I have made this website for a tuition class through this website students can see all the information about the class and can also take admission in the class.

[https://mrdigvijaylokare.github.io/Gauranga\\_Institute/](https://mrdigvijaylokare.github.io/Gauranga_Institute/)

#### Bank management system

The Bank Management System is a software application that facilitates the efficient management of various banking operations. This project is developed using Python language and selected to IIT Kharagpur.
